

Corus Construction and Industrial, Our Production Capability

Corus Construction & Industrial supplies semi finished products to a wide range of conditions of supply.

Product size range

Width (mm)	Thickness (mm)	Rolled/ Continuously cast
75	75	R
80	80	R
100	100	R
110	110	R
115	115	R
120	120	RC
127	127	R
130	130	R
140	140	R
150	150	R
158	158	R
160	160	R
180	180	RC
200	200	R
225	225	R
240	240	R
275	275	R
180 - 495	75	R
200 - 470	100	R

Sizes below are generally produced for internal transfer but are available on request.

330	254	C
283	230	C
483	305	C
750	355	C
1030 - 2030	225	C
1360 - 1785	250	C
1600 - 2030	295	C

Other sizes are available by arrangement (contact [CC&I](#)).

Surface Quality

A wide range of grades are available, subject to your surface quality requirements. Surface quality ranges from grade 2 to 6 (the higher the grade indicating improved surface quality). The more stringent grades, 4, 5 and 6, are available only as re-rolled product up to 160mm².

Lengths

Semi finished products are supplied in a range of lengths as required, and can be supplied to strict cutting tolerances where necessary.

Certification testing

Corus Construction & Industrial has on-site testing facilities which can be used to ensure that our steels meet your mechanical and microstructural requirements.
