

Corus International Projects

New horizons

Supply solutions for
pipes, fittings and flanges

Corus International network

A comprehensive Process Pipe Package service available when and where it's needed, worldwide.

Corus is one of the world's leading steel suppliers. Formed in 1999 by the merger of British Steel and Koninklijke Hoogovens. Corus employs around 50,000 people worldwide with the capacity to produce 21 million tonnes of steel a year. Corus also processes and distributes metal products and provides related services in design, technology and consultancy.

Corus International Projects is the specialist, dedicated supply chain management business unit with annual sales of 8 million tonnes of steel and a worldwide network of offices. We are continually expanding our reach and evaluating new

markets for which a presence would bring local advantage. We have also developed a wide range of strategic alliances with mills, stockists and partners around the world. According to our ISO 9001:2000 quality system, we only procure from companies with audited quality systems. In addition, we have stockholding facilities in North America, the Middle East and the Far East.

As such, Corus International Projects offers tailored process pipe package solutions to Oil, Gas and PetroChemical operators and contractors, particularly to the Middle East, North African, Caspian, Far East and European markets,

typically supplying material for PetroChemical, Refining, LNG, GTL, FPSO and Topsides applications. It is by combining our expertise and services innovatively and effectively, that we are able to offer our customers a complete solution, whatever the project requirements, wherever in the world.

We provide the flexibility and dynamism of Corus International Projects, whilst retaining our roots within Corus as a respected partner. This gives a unique dual strength to our operations, which is supported by our ability to source materials in established and emerging markets across the globe.

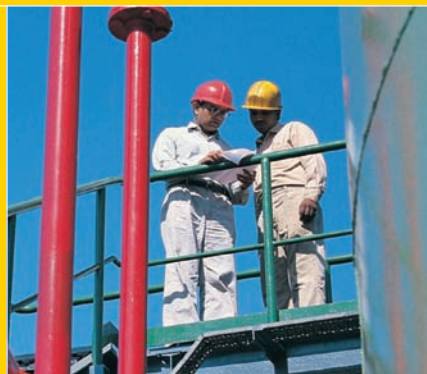

Process pipe packages - typical grades

Process of Manufacture	Type	"Generic" Steel Grades		
		Pipes	Fittings	Flanges
Welded	Carbon	API 5L B / X42	ASTM A234 WPB	ASTM A105 N
	Carbon	ASTM A672	ASTM A234 WPB	ASTM A105 N
	High Yield CS	API 5L Gr X52 / X60	MSS SP75 WPHY52 / 60	A694 F52 / 60
	Low Temp CS	ASTM A671	ASTM A420 WPL6	ASTM A350 LF2
	Low Alloy	ASTM A691	ASTM A234 WP	ASTM A182 F
	Stainless	ASTM A312	ASTM A403	ASTM A182 F
	Stainless	ASTM A358	ASTM A403	ASTM A182 F
	Duplex	A790	A815	A182 F
	Duplex	A928	A815	A182 F
Seamless	Carbon	API 5L B / X42	ASTM A234 WPB	ASTM A105 N
	Carbon	ASTM A106 B	ASTM A234 WPB	ASTM A105 N
	Carbon	ASTM A53 B	ASTM A234 WPB	ASTM A105 N
	High Yield CS	API 5L Gr X52 / X60	MSS SP75 WPHY52 / 60	A694 F52 / 60
	Low Temp CS	ASTM A333 Gr 6	ASTM A420 WPL6	ASTM A350 LF2
	Low Alloy	ASTM A335	ASTM A234 WP	ASTM A182 F
	Stainless	ASTM A312	ASTM A403	ASTM A182 F
	Duplex	A790	A815	A182 F

These tables are a guide to the scope of our offering and the selection of grades includes the typical, common ranges we have learned from experience as being the most popular. As such, due to the complex nature of steel process pipe products, these tables are not exhaustive.

Full details of our complete range of grades and specifications are available on request.

Supply chain management

Our customers regard Corus International Projects as a dependable partner, capable of dealing with complex process pipe package requirements.

Supplying a wide variety of Corus and non-Corus products, we have a broad scope to build tailored packages of the right items to fit your process pipe package needs.

Technical expertise

Comprising in-house technical know-how and broad product knowledge, further supported by the extensive experience and resources of the Corus Group research departments. This enables us to offer a fully comprehensive technical service at all project stages.

Logistics

Our logistics teams are expert in dealing with complex issues, including consolidation of materials from multiple sources and ensuring that goods arrive on time, in full, in good condition at your chosen destination.

Stock

Experience has taught us that stock is an essential part of any project philosophy. Consequently, we have invested in stock facilities in a number of strategic locations to ensure we can provide the security of supplies at short notice.

In addition, we have built partnerships with distributors across the world to enhance our service capability.

Finance

Expertise in export finance, project finance, performance guarantees, transactions in foreign currencies and other financial services all generate innovative solutions for our customers.

Contract Management

Our project teams regularly manage production progressing, expediting, and inspection, as well as having the capability to deal with your documentation requirements and customs formalities.

Health & Safety

Corus ensures the health, safety and well-being of its employees, contractors, visitors and neighbouring communities. A positive health and safety culture is encouraged, which only accepts safe behaviour.

Quality Assurance

Corus International Projects specialises in the supply of steel

products to a wide variety of market sectors and geographical regions, which places significant emphasis on reliability, dependability and product expertise.

According to our ISO 9001:2000 quality system, we only procure from companies with audited quality systems and a demonstrable capability to meet both our technical and quality specifications. New suppliers are audited to ensure that quality standards are maintained. In addition, we review and monitor suppliers throughout production to ensure that the quality of their products matches our required standards.

Process piping products

Welded Pipe (SAW, EFW, HFI, ERW)

Supplied in Carbon, Low Alloy, Low Temperature, Stainless and Duplex grade steels.

Seamless Pipe

Supplied in Carbon, Low Alloy, Low Temperature, Stainless and Duplex grade steels.

Butt Weld Fittings

Incorporating Elbows, Return Bends, Tees, Caps, Reducers and Crosses.

Supplied in Carbon, Low Alloy, Low Temperature, Stainless and Duplex grade steels.

Forged Steel Flanges

Incorporating Weld Neck, Blind, Slip On, Orifice, Lap Joint, Socket Weld and Threaded product forms.

Supplied in Carbon, Low Alloy, Low Temperature, Stainless and Duplex grade steels.

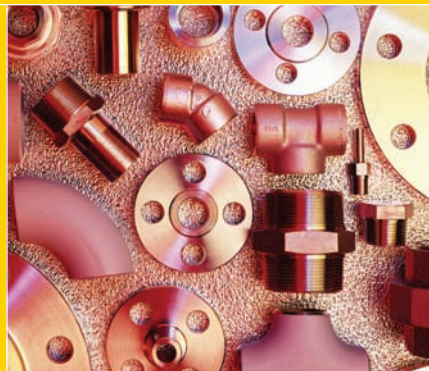

Forged Steel Fittings

Incorporating all standard product forms with Socket Weld or Threaded Ends in pressure ratings 3,000lb and 6,000lb.

Supplied in Carbon, Low Alloy, Low Temperature, Stainless and Duplex grade steels.

Ancilliary Products

Including Gaskets, Studbolts, Induction Bends, Strainers, Valves and Forged Branch Outlet Fittings.
