

November 2010

## REACH Registration

**EU Regulation No 1907/2006 on the:**

**Registration, Evaluation, Authorisation and Restriction of Chemicals**

This communication is written to update our customers throughout our supply chain with regards to Tata Steel Europe's REACH registration.

In October 2008 Tata Steel Europe (formerly Corus) pre-registered several substances under REACH to take advantage of the phased-in registration requirements set out in the regulations. Over the past two years the REACH team along with the businesses of Tata Steel Europe have worked hard to ensure the substances required to be registered will meet the registration deadline of 1<sup>st</sup> of December 2010.

We are pleased to announce that Tata Steel Europe has made all registrations considered relevant under REACH covering a number of substances. This is a generic update with regards to registrations and you are encouraged to contact your local commercial sales contacts for further information if they have not already contacted you.

Any questions relating to the registration of substances under REACH should be directed to your local business contact. Detailed questions can be forwarded internally to the REACH team if required so that your query can be answered in the most appropriate way.

Thank you for your attention in this matter and we look forward to working with you in the future with regards to our supply chain.

**TATA STEEL**
