

S1768101 – Attachment A – Reservoir markings

Options and specifications

Plate (print) on vinyl, and UV-resistant lamination

- After printing, it is laminated and has a technical lifespan of at least 7 years;
- The laminate acts as a UV filter;
- Temperature resistant up to about 50 degrees;
- Print is pasted on a DOR¹ or flat board;
- DOR board is for mounting on posts;
- Flat board is for fixing wall or facade.

Differences in print on KL1 foil, and UV-resistant lamination

- Favourable influence on the lifespan (+ 2/3 years).

Differences in Sublimation

- Higher scratch resistance, good anti-graffiti properties and a very long service life for indoor and outdoor applications;
- Life span for indoor and outdoor applications. Technical service life of 12 years;
- Temperature resistant up to approx. 180 degrees.

Bottle post or post with base plate + brackets for mounting DOR boards

- Under reinforced steel hot dipped galvanized $\varnothing 76 / \varnothing 48$ m bore, for example, 2 loose ground anchors for turning away L = 3000 / 3600mm,
- Tubular post galvanized $\varnothing 60 / 1800$ or 2500mm + foot pl. 200x200mm L = 1800 / 2500mm,
- Hot dip galvanized 10/100 push-through anchors (for posts with base plate),
- Aluminium (clamp) traffic sign bracket $\varnothing 48$ or $\varnothing 60$ mm (at posts with feed plate).

Glue

- The glue of the signs does not contain chlorides or fluorides;
- The adhesive has no degrading effect on polyurethane and epoxy coatings in any way.

Prices

- Prices according to standard agreement and include layout / design;
- Layout is sent to PTC-KDT for verification purposes;
- Prices for installation on location with quotation request.

¹ DOR: Double folded edges
