

## Advantica® SDP 50

A pre-finished steel product with excellent corrosion resistance

### Applications

- Doors and windows, Furniture, HEVAC.

### Characteristics

- Lightly grained surface appearance.
- Excellent corrosion and humidity resistance.
- Very good scratch and abrasion resistance.

### Substrates available

- Hot-dip Galvanised to EN 10346.

### Options

- Alternative backing coats available.
- Protective film.

### Advantica® working with you

The Advantica® brand provides a range of pre-finished steel products specially formulated for manufactured goods and widely used for diverse applications. The Advantica® product range is available in a wide range of colours, with solid or metallic effects as well as bespoke finishes tailored to individual needs. With continuous investment in research and development Tata Steel constantly update the product portfolio to ensure that they can meet the requirements of the manufactured goods sector.

### Tailored solutions and services

For any customized requirements, Tata Steel can meet your needs with shorter lead times, flexible quantities and further processing.

Our technical support team is on hand to help you to define:

- The best solution in view of the application and the manufacturing process.
- The precautions to be taken regarding the end use of this product.

# Advantica® SDP 50

## Product testing

To ensure the integrity of the Advantica® products, Tata Steel uses laboratory tests to measure their performance against corrosion, chemicals and abrasion. All testing of products is carried out to international standards.

## Forming and processing

The Advantica® products can be formed and processed with various techniques including: cutting, shearing, notching, piercing, slitting, press braking, folding, roll forming, spinning and deep drawing.

## Cleaning and maintenance

All Advantica® products can be cleaned with commercially available, water based cleaning products. The use of abrasive cleaners or scouring pads is not recommended. For controlled environments, ensure that the cleaner is compatible with the pre-finished steel product used on.

## Typical properties

Advantica® SDP 50			Test standard
Nominal organic coating thickness	µm	50	EN 13523 - 1
Specular gloss (60°)	GU	20 - 70	EN 13523 - 2
Adhesion on bending	T	0	EN 13523 - 7
Flexibility (minimum bend radius)	T	1	EN 13523 - 7
Pencil hardness		F	EN 13523 - 4
Scratch resistance	g	>2500	EN 13523 - 12
Abrasion resistance (Taber, 250 rev. 1 kg, CS10 wheels)	mg	<20	EN 13523 - 16
Corrosion resistance: Neutral salt spray	hours	750	EN 13523 - 8
Humidity resistance	hours	1500	EN 13523 - 26
Corrosion resistance category		RC5*	EN 10169
UV resistance category		Ruv4	EN 10169
CPI category		CPI4*	EN 10169

### Notes

The figures contained in this table are typical properties and do not constitute a specification. If forming pre-finished steel below 16°C please consult Tata Steel for further information.

\*Corrosion and humidity performance subject to specification such as minimal metallic coating weight.
