

Ground Limestone/Agri-lime

A high-calcium lime application product for yield improvement

Agri-lime is a high-quality ground limestone (calcium carbonate - CaCO₃). It has a high calcium content, low clay content and high neutralising value.

Stored in the dry, it is the ideal high-yielding product for improving soil quality and increasing agricultural yield.

Agri-lime is a proven limestone product supplied from Tata Steel at Shapfell in Cumbria, UK. Located close to the M6 motorway and west coast main railway line, Shapfell operates 24/7 loading facilities – allowing fast, low-cost delivery by road or rail.

With highly-flexible operations and a responsive service, we make every effort to accommodate orders and cancellations at short notice.

Size specification

+6.3mm 1% max.
+ 3.15mm 10% max.

Indicative neutralising value

54.94 %¹

¹ Tested by independent laboratory..

Typical chemical analysis (XRF analysis)

Fe	CaCO ₃	SiO ₂	MgO	Al ₂ O ₃	P	Mn	S	K ₂ O	V ₂ O ₅	TiO ₂
0.22	98.3	0.26	0.33	0.17	0.001	0.040	0.055	0.025	0.032	0.008

Results expressed as [%] of total weight.

Please note: This product is not tested to the requirements of the EC Fertilisers (England and Wales) Regulations 2006.

Our technical and production teams are always happy to answer your questions on product choice and application.
