

# **Outbound Road Standards Co-Loads**

Harmonisation system codes for the  
indentification of permissible co-loads

## Introduction

This document supplements Section 3 regarding Co-loads in the current version of the Tata Steel Outbound Road Standards and gives in detail the type of co loads which are not allowed to be transported with Tata Steel Strip and Packaging products.

This is presented using the 'Harmonized Commodity Description and Coding System 2017' system.

## Change List (from Version 3.3)

No Changes

## 1. Prohibited Co-loads

### 1.1 Items not permitted

#### Items not permitted include

- Perishable goods
- Additional cargo damaging the packaging and Tata Steel products.
- Loose bulk materials
- Additional cargo not fitting within the dimensions of the trailer.
- Additional cargo or residue thereof affecting the Tata Steel products by its odour or by contamination. Therefore, empty packaging from chemicals is also not permitted.
- For Tata Steel Packaging (TSP) products special HACCP rules apply with regards to food hygiene. Questions concerning these rules should be directed to the consignee.

## 1.2 Hazardous Co-loads

Not permitted are:

- Chemicals (toxic, noxious, irritating or corrosive products) or explosive goods.
- Co-loads that exhibit the following GHS symbols are not allowed:

- |             |  |  |  |
|-------------|--|--|--|
| ▪ Explosive |  |  | ▪ Acutely toxic                          |
| ▪ Flammable |  |  | ▪ Irritating<br>Sensitizing<br>Harmful   |
| ▪ Oxidant   |  |  | ▪ Long term<br>health hazard             |
| ▪ Corrosive |  |  | ▪ Hazardous to<br>aquatic<br>environment |

## 1.3 Harmonisation System (HS) Codes

In order to better define co-loads the 'Harmonized Commodity Description and Coding System 2017' system has been adopted so as to identify those products which may be transported as co-loads and those that may not. The type of co-loads allowed varies depending upon the Tata Steel product, Tata Steel Packaging (TSP) or Tata Steel Strip Products (TSSP).

The HS codes comprise of three levels - Chapter, Heading and Sub-heading. In this document details of the products are given to the Heading (second) level. This information is only published in English due to the information sources available.
